

# AvaSpire® AV-651 GF30 polyaryletherketone

AvaSpire® AV-651 GF30 is a 30% glass fiber reinforced polyaryletherketone (PAEK) that has been specifically formulated to provide higher mechanical strength and stiffness than unfilled AV-651 resin. This resin offers chemical resistance nearly equivalent to glass fiber-reinforced PEEK in most chemicals, with a lower heat deflection temperature.

These properties make it well suited for applications in healthcare, transportation, electronics, chemical processing and other industrial uses.

- Beige: AvaSpire® AV-651 GF30 BG 20
- Black: AvaSpire® AV-651 GF30 BK 95
